

KLOVE radio serves me by keeping me informed of the good that is still in the world. Whenever I'm having a bad day, I always tune in to get relaxed, whether I'm @ home, work or in the car. I don't think my community has but one other "religious" station in it's area and I don't want to hear "preaching" all day. I enjoy TEACHING my child these songs. We turn the music up not change the station. The positive music and comments makes me feel more inspired to reach my goals as a mother, wife and so much more. I have a public interest in this station staying available to me and my community because of its positive impact on my life over the last year. I have called the station many times for prayer and guidance. I also believe it will and has helped many others in the same way. I have heard so many people say how they believe a song contributed to a suicide of someone they knew and this station can only save lives. Thank you for your consideration.
